

We are looking

Robotics Mechatronics Engineer (f/m/d)

At Stoiber GmbH we have a long history of building innovative solutions for our customers. Starting from a blacksmith's workshop more than 100 years ago, our company has continuously evolved over multiple generations. Based on the modern mechanical engineering company we are today, we want to go the next steps into the future focusing on the frontier of robotics. Join our startup-like product development team of innovators, thinkers, and creators dedicated to building a cutting-edge robot solution for tomorrow's steelwork manufacturing.

MASCHINENBAU

Responsibilities:

- Develop and build the prototype of a robot system for steelwork manufacturing
- Select sensors and equipment and integrate them into the robot system
- Design, assemble, and test mechanical components
- Optimize process parameters and the production quality of the system
- Conduct and supervise experiments, create simple robot programs
- Collaborate with a cross-functional team of software engineers

Qualifications:

- Master's degree in Robotics, Mechatronics, or Mechanical Engineering
- Strong experience in product development and mechanical design
- High levels of proficiency in using CAD software, notably Autodesk Inventor
- Hands-on mentality and readiness to engage directly in practical tasks
- Comprehensive knowledge of steelwork manufacturing techniques
- Prior experience with collaborative robots and programming advantageous

Our Offer:

- A competitive salary at an established company
- Startup-like work culture in a young and dynamic team
- State-of-the-art facilities with the latest tools and equipment
- Home office and flexible working hours
- Opportunities for professional growth and development
- A chance to shape the future and push the boundaries of robotics

Due to legal reasons, we are obliged to disclose the minimum salary for this position, which is 45.068€ per year for full-time employment (38.5 h/week). We offer a significantly higher salary in line with qualifications and experience.
